COMPARISON OF THE CURRENCY WITH OTHER NFT PROJECTS

2.12 HENI compares the total volume of sales for The Currency with those of four other popular NFT projects. Note that the y axis is unique to each project, due to the different range of prices. All sale prices have been converted to ETH, based on the exchange rate at the time of sale.

FIG. 10 Daily turnover and median price of popular NFT projects

- 2.13
- Volumes were quite high for most projects at the beginning of December, and were higher overall compared to previous months.
- 2.14
- Figure 10 also shows the daily median price for each project. Please note that the y axis is different due to varying levels of median prices.
- 2.15
- Prices in general increased at the beginning of December and stayed higher than previous months.
- 2.16
- The median price of Bored Ape Yacht Club NFTs saw an increase at the end of the previous month, and it reached 22.5 ETH at the beginning of December. It then went down until 15 ETH at the end of the month.
- 2.17
